Attention Marlboro Smokers

- ★ Marlboro cigarettes cause cancer, heart disease, emphysema and other serious diseases.
- ★ Marlboro cigarettes are addictive.
- ★ There is no such thing as a safe Marlboro.

In 1997, Philip Morris CEO Geoffrey Bible testified that he would shut his manufacturing plants down instantly if scientists proved that cigarettes were a cause of lung cancer.

CLASS A BROKEN PROMISES

**If Marlboros really do cause the disease
that YOU say they do...
Please keep your promise and stop making them.
A promise is a promise.**
