

TOBACCO CONTROL

Contents

The artwork on our cover this issue has become one of the most circulated pictures about smoking in recent internet history. The editor began receiving it in July 2006 and has since received it many times. Googling "painted ceiling for a smoking area" shows it on many website and blogs. We have not been able to track down who created the image, but would like to thank them for once again proving that a picture is worth a thousand words.
