

Supplementary Figure 2. Availability of flavored cigars (top panel) and flavored vapor products (e-cigarettes or e-liquids; bottom panel) from Quarter 1 to Quarter 7 among communities with and without a flavored product restriction

Note: Data presented in this figure are not continuous, but rather represent cross-sectional data collected at every quarter (data not collected between quarters). At the time of quarter 3 data collection, all Wave 1 communities had implemented policies. At the time of quarter 5 data collection, all Wave 2 communities had implemented policies (see Figure 1 for complete implementation timeline).

Graph was created using R 3.5.1.
