Citations

Citations is a list of recently published papers and reports that the editors believe make an important and original contribution to the various fields in tobacco control. Copies of unpublished, private or generally hard-to-get reports that deserve wider notice are also of interest to Tobacco Control and should be sent to Simon Chapman, deputy editor, at the address on the inside front cover.

General

Beaghehole R. The challenge for Beijing—the 10th World Conference on Tobacco or Health—the best national strategies need to be adopted worldwide. BMJ 1997;315:858–9.
