

VAPOR INDUSTRY RALLIES AMIDST COVID-19 CRISIS TO MANUFACTURE HAND SANITIZER AND DELIVER MASKS

VTA has been working to support our member companies which have stepped up to manufacture, bottle and distribute much needed hand sanitizer throughout our communities. VTA is working with its members to source additional materials to further expand the great work already being done. We are all in this together and we are so proud of the way our community has rallied together to help get our nation through this public health crisis. We are looking for every example, large and small, of how the companies in our industry have been stepping up to do their part to flatten the curve. Please send details of what your company has been doing and let us know if you want to be included in our coordinated effort. If you have any examples to share or are interested in supporting this effort, please fill out this quick [form](#).

Supplementary Online Figure 7: An e-mail announcement from the e-cigarette industry advocacy group Vapor Technology Association (<https://vaportechnology.org/>): “We are looking for every example, large and small, of how the companies in our industry have been stepping up to do their part to flatten the curve.”
