\*That is, Member States that were Parties to the FCTC on the final day of the relevant COP session(15)

†World Bank income categories exclude a number of small states (including the Cook Islands, Nauru, Niue and Tuvalu) which are therefore not included in these subtotals or in calculating percentage participation by income group. For this reason the sum of Parties in each income category is less than the total number of Parties to the FCTC at the time of the relevant COP session.
