*Member states in the relevant year as reported in WHO World Health Statistics reports (available from http://www.who.int/gho/publications/world_health_statistics/en/index.html)

†World Bank income categories exclude a number of small states (including the Cook Islands, Nauru, Niue and Tuvalu) which are therefore not included in these subtotals or in calculating percentage participation. For this reason the sum of the Parties in each income category is less than the total number of Parties to the FCTC at the time of the relevant COP session.
